Liquid Adhesives

Daily Wear

Mity-Tite
Liqui-Tape

Extended Wear

Soft-Bond
Safe Grip

Maximum Wear

Great White
Ultra Hold

- These are all considered soft bonds.
- All of our liquids adhesives are waterproof and stay tacky
- All of our glues are latex-free
- We guarantee a 6-month shelf life from the ship date.
- Store at room temp, keep air-tight to last longer than six months.
- Keep away from direct sunlight and high heat.
- We recommend a patch test before a full install.
- We have MSDS sheets on all of our liquids.

Liquid Adhesives - Daily Wear

Mity-Tite

- Acrylic-based, thinner version of Ultra-Hold
 - Hold Time: 1-7 days
 - Application: Client-friendly, less stringy and tacky
 - Cleanup: Easy when using C-22 or Rapid Release
 - #1 Daily Wear adhesive, dries clear
 - Designed mostly as a touch-up glue for use between sessions with stylist.
 - Use to thin out Ultra Hold if it starts to thicken; will not affect hold time.
 - Flammable
-
- **Sizes:**
 - .5 oz. Brush On
 - 1.4 oz. Dab On or Brush On
 - 3.4 oz. Brush On
 - Pint (16 oz.)

Liquid Adhesives - Daily Wear

Liqui-Tape

- Silicone-based
 - Thinner version of Soft Bond
 - Hold Time: 1-7 days
 - Application: Client-friendly, dries clear
 - Cleanup: Easy when using C-22 or Rapid Release
 - Designed mostly as a touch-up glue for use between sessions with stylist.
 - Can be used to thin out Soft Bond if it starts to become too thick.
 - Flammable
- **Sizes:**
 - .5 oz. Brush On
 - 1.4 oz. Dab On or Brush On
 - 3.4 oz. Brush On
 - Pint (16 oz.)

Liquid Adhesives - Extended Wear

Safe-Grip

- Water-based co-polymer (two adhesives bonded together)
- Comparable to Ghost Bond
- Hold Time: 1-3 weeks
- Application: Client and Stylist-friendly, not stringy
- Low odor, dries clear
- Cleanup: Use our H2GO or dish soap and warm water
- Our most popular Extended Wear adhesive
- Bacteria resistant, non-toxic and non-flammable
- Great option for international users who don't want to pay HAZ-MAT fees.

Sizes:

- 1.4 oz. Twist Top
- 3.4 oz. Brush On
- 8 oz. Twist Top
- 1/2 Gallon

Liquid Adhesives - Extended Wear

Soft Bond

- Silicone-based
 - Silicone version of Ultra Hold
 - Hold Time: 1-3 weeks
 - Application: Stylist-friendly, not as stringy
 - Cleanup: Easy when using C-22 or Rapid Release
 - Thicker and longer-lasting version of Liqui-Tape
 - Does not work as well as Ultra Hold, not our best seller
 - Thins out with Liqui-Tape, will not effect the hold time
 - Flammable
- **Sizes:**
 - 3.4 oz. Brush On
 - Pint (16 oz.)

Liquid Adhesives - Maximum Wear

Ultra Hold

- Acrylic-based
- Hold Time: 3–5 weeks
- Application: Stylist only, messy to work with, dries clear
- Cleanup: Easy when using C-22 or Rapid Release
- Our #1 biggest seller for Maximum Hold!
- Longer hold & better consistency than any of our other solvent-based glues
- Mity-Tite can be used to thin it out and it will not affect the hold time.
- Competitors are: “Perma Right 1” and “No Tape”, but those are silicone-based.
- Flammable
- **Sizes:**
 - .5 oz. With a Brush OR Without a Brush
 - 1.4 oz. Brush On
 - 3.4 oz. Brush On
 - Pint (16 oz.)

Liquid Adhesives - Maximum Wear

Great White

- Water-based co-polymer (more than one adhesive bonded together)
- Hold Time: 3-5 weeks
- Application: Client/Stylist-friendly, not stringy, dries clear
- Cleanup: Comes off with our H2GO or strong dish soap and warm water
- Longest-holding water-based adhesive we sell
- Specially formulated for clients who sweat excessively or play a lot of sports.
- Thicker, longer-lasting option for Safe Grip, comparable to Ghost Bond
- Non-toxic and non-flammable
- Bacteria-resistant

Sizes:

1.4 oz. Twist Top
3.4 oz. Brush On
8 oz. Twist Top
1/2 Gallon

Tape Adhesives - Daily Wear

1522 Clear

- Acrylate-based
 - Hypoallergenic, gentle on skin
 - Hold Time: 1-7 days
 - Application: Client-friendly
 - Cleanup: cleans up fairly easily, leaves little residue
 - 3rd biggest-selling tape
 - Super-reliable tape especially for the more health-conscious client.
 - Not ideal for mesh units because it has some shine.
 - Comparable to Top Stick and replaces Hi-Tack
 - Comes in rolls, straight strips, contours and minis.
- Strip Sizes: 3" long by 1/2", 3/4" and 1" widths, 36 pieces to a bag
Roll Sizes: 1/4" (6 yds ONLY), 1/2", 3/4" & 1" widths by 3, 12 & 36 yds
Regular Contours have 36 pieces per bag
5" Superwide contours have 24 pieces per bag
Minis are 3/4" by 1.5" with 72 strips per bag

Tape Adhesives - Daily Wear

This Side to Base

- Acrylic-based
 - Fusion of 1522 Clear (this side goes to the head)
and Base Tape (this side goes to the unit)
 - Hold Time: 1-7 days
 - Application: Client-friendly
 - Cleanup: Removes easily and helps prevent the unit from tearing
 - Awesome alternative for daily wear users with lace/mesh units
 - Less gummy/tacky
 - Comes in strips and contours in bags of 36
-
- Strips Sizes: 1/2", 3/4" and 1" by 3" long.
Contour Sizes: A, AA, B, BB, C, CC

Tape Adhesives - Extended Wear

Sensi-Tak

- Acrylic-based
- Hold Time: 1-2 weeks
- Application: Client-friendly
- Cleanup: Easiest with least amount of residue
- Our 2nd best-selling tape!
- Customers also use this as a daily wear tape
- Provides the most secure hold for daily wear users
- Popular tape for polyurethane units
- Comes in rolls, straight strips, contours and minis
 - Strip Sizes: 3" long by 1/2", 3/4" and 1" widths, 36 pieces to a bag
 - Roll Sizes: 1/4" (6 yards ONLY), 1/2", 3/4" & 1" widths by 3, 12 & 36 yards
 - Regular Contours have 36 pieces per bag
 - 5" Superwide contours have 24 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag

Tape Adhesives - Extended Wear

German Brown

- Natural rubber-based with fibers
- Might contain some latex
- Hold Time: 1-2 weeks
- Application: Stylist-friendly
- Cleanup: thick tape, messy to clean up
- Usually used with the hard bonds because the
Hard Bonds lock into the tape fibers
- Comes in rolls, straight strips, contours and minis
 - Strip Sizes: 3" long by 1/2", 3/4" and 1" widths, 36 pieces to a bag
 - Roll Sizes: 1/4" (6 yds ONLY), 1/2", 3/4" & 1" widths by 3, 12 & 36 yds in length
 - Contours have 36 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag

Tape Adhesives - Extended Wear

Lace Front Thin

- Acrylic-based
- Thinner version of Lace Front Support (3 mil)
- Hold Time: 1-2 weeks
- Application: Stylist-friendly, hard to work with because it's so thin.
- Cleanup: moderate
- Designed for the front because it conceals the hairline perfectly
- Dull finish, not noticeable through mesh unit
- Not a very popular tape because it's hard to work with
- Comes in straight strips, contours and minis
 - Strip Sizes: 3" long by 1/2", 3/4" and 1" widths, 36 pieces to a bag
 - Roll Sizes: 1/4", (6 yds ONLY), 1/2", 3/4" & 1" widths by 3, 12 & 36 yds in length
 - Contours have 36 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag

Tape Adhesives - Extended Wear

Super Stick

- Acrylic-based
- Hold Time: 1-2 weeks
- Application: Stylist-only
- Cleanup: moderately messy to clean up
- This is an old-school tape.
- Known for initial high tack when applying
- Comparable to Tropical Tape and No Glue Please
- Comes in rolls, straight strips, contours and minis

- Strip Sizes: 3" long by 1/2", 3/4" and 1" widths, 36 pieces to a bag.
Roll Sizes: 1/2", 3/4" and 1" widths with 3, 6, 12 and 36 yards long.
Contours have 36 pieces per bag
Minis are 3/4" by 1.5" with 72 strips per bag

Tape Adhesives - Maximum Wear

Lace Front Support

- Acrylic-based
- Hold Time: 1-3 weeks
- Application: Stylist-friendly
- Cleanup: Easy and simple using Lace Release solvent
- **#1 selling tape in the Maximum Wear line ?**
- Dullest-finish tape in the industry, popular for lace front units
- When it gets gooey and starts to break down, it still holds.
- Super-flexible and reliable
- Comes in rolls, straight strips, contours and minis
 - Strip Sizes: 3" lengths by 1/2", 3/4" and 1" widths, 36 pieces to a bag
 - Roll Sizes: 1/4" (6 yards ONLY), 1/2", 3/4" & 1" widths by 3, 12 & 36 yards
 - Contours have 36 pieces per bag
 - 5" Superwide contours have 24 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag

Tape Adhesives - Maximum Wear

No-Shine

- Urethane-based “unofficial” hypoallergenic tape
- Hold Time: 2-4 weeks
- Application: Stylist-friendly
- Cleanup: messier, longer clean-up time
- Best tape for max wear clients with sensitive skin. Will not cause redness.
- Not as strong as Ultra Hold Tape
- Dull finish, not noticeable through mesh unit
- Super-flexible and very popular in the Hair Extensions line
- Comes in rolls, straight strips, contours and minis
 - Strip Sizes: 3” lengths by 1/2”, 3/4”, and 1” widths, 36 pieces to a bag
 - Roll Sizes: 1/4” (6 yards ONLY), 1/2”, 3/4” & 1” widths by 3, 12 & 36 yards
 - Contours have 36 pieces per bag
 - Minis are 3/4” by 1.5” with 72 strips per bag.

Tape Adhesives - Maximum Wear

Duo-Tac

- Acrylic-based
- Two tapes fused together: Sensi-Tak & Lace Front Support
- Hold Time: 1-3 weeks
- Application: Stylist-friendly
- Cleanup: Moderate, easier to clean up when the Sensi-Tak side is applied to the unit
- Longest-lasting tape we make
- Designed for dullness, holding power and easy cleanup
- Comes in strips, contours and minis
 - Strip Sizes: 3" lengths by 1/2", 3/4" and 1" widths
 - 5" Superwide contours have 24 pieces per bag.
 - Contours and strips have 36 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag.

Tape Adhesives - Maximum Wear

Duo-Tac Thin

- 🟡 Acrylic-based
- 🟡 Thinner version of Duo-Tac
- 🟡 Two tapes fused: Sensi-Tak & Lace Front Support Thin
- 🟡 Hold Time: 1-3 weeks
- 🟡 Application: Stylist-friendly
- 🟡 Cleanup: Moderate, easier to clean up when the Sensi-Tak side is applied to the unit
- 🟡 Designed for dullness, holding power and easy cleanup
- 🟡 If Duo-Tac is too thin, this is the better option.
- 🟡 Comes in strips, contours and minis
 - 🟡 Strip Sizes: 3" lengths by 1/2", 3/4" and 1" widths
 - Contours and strips have 36 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag.

Tape Adhesives - Maximum Wear

Ultra Hold

- Acrylic-based
- Hold Time: 2-4 weeks
- Application: Stylist-only
- Cleanup: Messy
- Longest-holding tape we offer
- Super-tacky and very flexible
- What makes the dull finish is the fingerprint-like impressions
- Comparable to Super Tape, Extenda-Bond, Air Flex and Geobond
- Comes in rolls, straight strips, contours and minis
 - Strip Sizes: 3" lengths by 1/2", 3/4", and 1" widths, 36 pieces to a bag
 - Roll Sizes: (1/4", 1/3", 3/8" - 6 yds ONLY), 1/2", 3/4", 1" & 1.5" widths by 3, 12 & 36 yds
 - Contours have 36 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag

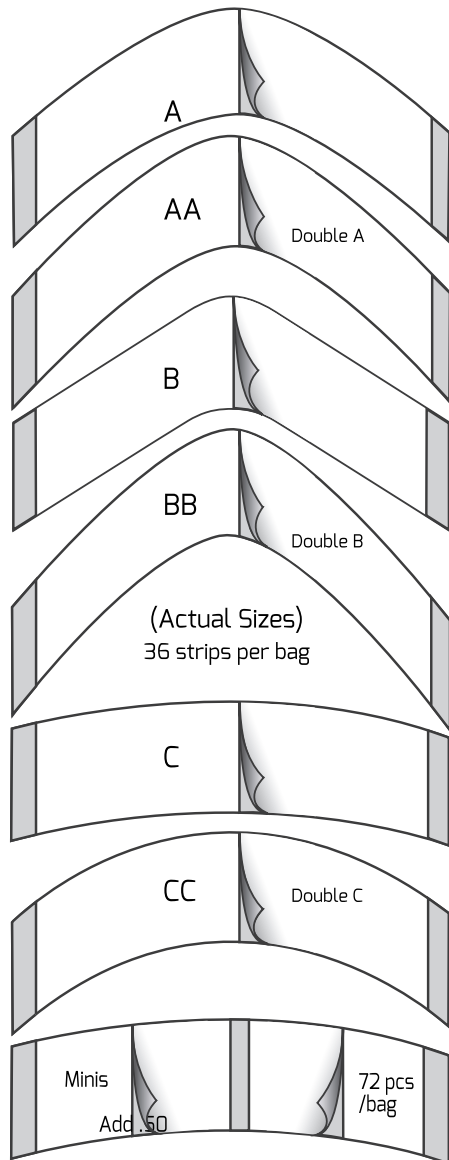

Tape Adhesives - Maximum Wear

Pro-Flex II

- Urethane-based
- Hypoallergenic
- Hold Time: 2-4 weeks
- Application: Stylist-only
- Cleanup: Moderate
- Strongest official hypoallergenic tape in the industry
- Super-flexible
- Comes in straight strips, rolls, contours and minis
 - Strip Sizes: 3" long by 1/2", 3/4" and 1" widths, 36 pieces to a bag
 - Roll Sizes: (1/4", 1/3", 3/8"- 6 yds only), 1/2", 3/4" & 1" & 1.5" widths by 3, 12 & 36 yards
 - Contours have 36 pieces per bag
 - Minis are 3/4" by 1.5" with 72 strips per bag

Specialty Tapes

Extenda-Bond Plus

Walker's version of Extenda-Bond tape

Extenda-Bond (minis and rolls with holes)

Has holes to help the scalp breathe better

Base Tape (formerly Transpore Tape)

Used to make This Side To Base contours and repair damaged units

Ultra-Hold Minis

Smaller than regular tape tabs

Specialty Tapes

Extenda-Bond Plus

- Acrylic-based
- Walker's version of Extenda-Bond tape
- Hold Time: 2-4 + weeks
- Application: Stylist-only
- Cleanup: Messy
- Cheaper to buy than regular Extenda-Bond
- Dull finish is due to the fingerprint-like adhesive
- Also known as Geobond and Eurobond
- Comes individually or in boxes of 100

- Strip Size: 1.5" wide by 12" long

Specialty Tapes

Extenda-Bond (minis and rolls with holes)

- Acrylic-based
 - Hold Time: 2-4 weeks
 - Application: Stylist-only
 - Cleanup: Messy
 - Very flexible and tacky
 - Clients like this tape because the holes help the scalp to breathe more.
 - Also known as Geobond and Eurobond
 - Comes in minis and rolls with holes
-
- Minis are 3/4" by 1.5" with 36 strips per bag
Roll Sizes: 3/4" by 40 feet long (not made by Walker Tape)

Specialty Tapes

Base Tape

- Acrylic-based
 - Single-sided Daily Wear tape
 - Hold Time: 1-7 days
 - Application: Client-friendly
 - Cleanup: Easy
 - Used to make This Side To Base contours and repair damaged units
 - Popular for fragile units because it has a gentle hold.
 - When removing adhesive off fragile unit it prevents damage.
 - ONLY comes in 1" by 3 yards (108") rolls
- Roll Size: 1" wide by 3 yards long (108")

Specialty Tapes

Ultra-Hold Minis

- Acrylic-based
- Hold Time: 2-4 weeks plus
- Application: Stylist-only
- Cleanup: Messy
- Longest-holding tape we offer
- Super-tacky and very flexible
- The dull finish is from the fingerprint-like impressions
- Comparable to Super Tape, Extenda-Bond, Air Flex and Geobond
- The best solvent to remove this tape is C-22

- Minis are 3/4" by 1.5" with 72 strips per bag.

Hard Bonds

Top Priority

Sure-Stick

Sensi-Bond

P.A.T. Tape

- ◎ Hard Bonds are intended for permanent wear and are used to bond hair stubble to the hair system and P.A.T. tape. They should not be used directly on hair units or skin.
- ◎ These glues dry very hard and should only be applied by stylists.
- ◎ All of these hard bonds are non-flammable and can be put in the refrigerator to extend the shelf life.

Hard Bonds

Top Priority

- High quality super glue
 - Hold Time: 4–6 weeks
 - Application: Stylist-only
 - Cleanup: Difficult, remove with Hard Bond Remover
 - Used for permanent wear, dries very hard and crystallizes
 - Designed to bond hair stubble to hair system
 - Best for people that have really high chemicals in their sweat
 - Do not stick this directly onto unit or skin, use only on P.A.T. tape
 - Can be kept in the refrigerator to extend the shelf life
-
- Size: 1.1-oz. drip bottle, 20-25 applications

Hard Bonds

Sure-Stick

- Formulated to match Top Priority, but will not crystallize
 - Hold Time: 4-6 weeks
 - Application: Stylist-only
 - Cleanup: Difficult, remove with Hard Bond Remover
 - Intended for permanent wear
 - Designed to bond hair stubble to hair system
 - Best for people that have really high chemicals in their sweat
 - Dries slightly softer than Top Priority
 - Do not stick directly onto unit or skin, use only on P.A.T. tape
 - Can be kept in the refrigerator to extend the shelf life
-
- Size: 1.1-oz. drip bottle, 20-25 applications

Hard Bonds

Sensi-Bond

- Cheaper version of Top Priority
 - Hold Time: 2-4 weeks
 - Application: Stylist-only
 - Cleanup: Difficult, remove with Hard Bond Remover
 - Intended for permanent wear
 - Designed to bond hair stubble to hair system
 - Best for people that have really high chemicals in their sweat
 - Dries very hard and crystallizes more than Top Priority
 - Do not stick directly onto unit or skin, use only on P.A.T. tape
 - Can be kept in the refrigerator to extend the shelf life
-
- Size: 1.1-oz. drip bottle, 20-25 applications

Hard Bonds

P.A.T. Tape

- Acrylic-based
 - Hold Time: 1-2 weeks
 - Application: Stylist-only
 - Cleanup: Easily removed with Lace Release
 - Old school method, used with the hard bonds (Sure Stick works best)
 - Used for bonding to hair stubble
 - The adhesive side attaches to the unit. The other side with no adhesive goes next to the head where the hard bond adhesive is applied.
 - ONLY comes in 3/4" by 18 yards
- Roll Size: 3/4" wide by 18 yards long

Adhesive Removers/Solvents

C-22 Solvent	Citrus-Based
Lace Release	Alcohol-Based
Rapid Release	Citrus-Based
Walker Solvent	Oil-Based
S3 Solvent	Citrus-Based
Hard Bond Remover	Acetone-Based
99% Alcohol	Alcohol-Based
Action	Citrus-Based
H2GO	Water-Based

- ▶ All except H2GO are flammable, combustible, and classified as hazardous materials (HAZ-MAT).
- ▶ Doing a patch test is recommended to make sure client is not allergic.
- ▶ Flammable liquids can only be shipped by regular ground or priority overnight.
- ▶ Walker Solvent is the only solvent that is not allowed in California.
- ▶ Hazardous liquids going to Hawaii and Alaska are shipped as a HAZ-MAT (expensive).
- ▶ We have MSDS sheets on all of these products.

Adhesive Removers/Solvents

C-22 Solvent

- ▶ Citrus-based
- ▶ Great citrus smell
- ▶ Our best-selling Solvent!
- ▶ Fastest-working skin-safe solvent we make
- ▶ Oily residue, rinses easily with soap and water
- ▶ Comparable to Amber
- ▶ Flammable and combustible

- ▶ **Sizes:**
 - 4 oz. Spray
 - 12 oz. Spray
 - 1 Gallon

Adhesive Removers/Solvents

Lace Release

- ▶ Alcohol-based
- ▶ Non-oily
- ▶ Natural oils are added to reduce evaporation.
- ▶ Releases lace units from the head more easily.
- ▶ Properly used, most adhesive stays on scalp, not unit.
- ▶ Reduced chance of damaging hair unit
- ▶ Reduced cleanup time
- ▶ Flammable and combustible

- ▶ **Sizes:**
 - 1.4 oz Dab-on
 - 4 oz Spray
 - 1 Quart

Adhesive Removers/Solvents

Rapid Release

- ▶ Citrus-based
- ▶ More acidic than other solvents
- ▶ NOT skin-friendly. For use on hair units ONLY!
- ▶ Breaks down adhesive the fastest
- ▶ Flammable and combustible

- ▶ **Sizes:**
 - 12 oz. Spray
 - 1 Gallon

Adhesive Removers/Solvents

Walker Solvent

- ▶ Oil-based but, less oily than C-22 solvent
- ▶ Pleasant watermelon smell
- ▶ Being less oily, the cleanup process is quicker.
- ▶ Not the fastest solvent, but stylist can let the unit soak while they clean and prep clients head.
- ▶ Inexpensive, so use as much as you want
- ▶ NOT allowed in California
- ▶ Flammable and combustible

- ▶ **Sizes:**
 - 4 oz. Drip-top
 - 1 Gallon

Adhesive Removers/Solvents

S3 Solvent

- ▶ Citrus-based
- ▶ Skin-Safe but not hypoallergenic
- ▶ Not as fast as C-22 but works just as well
- ▶ Low oily residue, easy to rinse
- ▶ Flammable and combustible

- ▶ **Sizes:**
 - 4 oz. Spray
 - 12 oz. Spray
 - 1 Gallon

Adhesive Removers/Solvents

Hard Bond Remover

- ▶ Acetone
- ▶ Used for emergencies to remove hard bond drips or spills
- ▶ Use while glue is still wet. Once dried, it's permanent.
- ▶ NOT to be used directly on the units or skin
- ▶ Can be kept in the refrigerator to extend the shelf life
- ▶ Flammable and combustible

▶ Size: 1.1-oz. drip bottle, 20-25 applications

Adhesive Removers/Solvents

99% Alcohol

- ▶ Medical grade
- ▶ Removes oils and solvents from skin
- ▶ Cleans, sanitizes and preps the skin for install
- ▶ Extends the life of the bonds
- ▶ Flammable and combustible

Sizes:

1 Quart

Adhesive Removers/Solvents

Action

- ▶ Citrus-based
- ▶ Same ingredients as Rapid Release but in different proportions
- ▶ Skin-friendly
- ▶ Breaks down adhesive the fastest
- ▶ Saves time
- ▶ Flammable and combustible

- ▶ **Sizes:**
 - 4 oz. Spray
 - 12 oz. Spray
 - 1 Gallon

Adhesive Removers/Solvents

H2GO

- ▶ Water-based solvent
- ▶ Specially formulated to remove water-based glues
- ▶ Fast and easy to use
- ▶ Oily residue is minimal based on comparable products
- ▶ Non-flammable

- ▶ **Sizes:**
 - 4 oz. Spray
 - 12 oz. Spray

Preparations

Scalp Protector

Scalp Protector Thick

Max Hold Sport

Top-Loc Knot Sealer

Just-Rite Positioning Spray

- ➡ Using preparations in the correct way help make hold times on adhesives longer.
- ➡ Scalp Protector/Thick helps prevent allergic or sensitivity reactions to adhesives.
- ➡ Doing a patch test is recommended before using any of the preparations to make sure that the client has no allergic reactions to them.
- ➡ Flammable liquids can only be shipped by regular ground or priority overnight because they are HAZ-MAT.
- ➡ Hazardous liquids going to Hawaii and Alaska are shipped HAZ-MAT (expensive).
- ➡ MSDS sheets on all of our preparation liquids are available.

Preparations

Scalp Protector

- ➡ Alcohol-based liquid plastic
- ➡ Use with Daily Wear bonds
- ➡ For sensitive or oily skin and people who play sports
- ➡ The plastic acts as a barrier to reduce or prevent skin irritation.
- ➡ Sanitizes and leaves a thin layer of plastic on the head
- ➡ Plastic makes the adhesive stick immediately
- ➡ Increases hold time of the adhesive
- ➡ Must wait 24 hours before washing
- ➡ Flammable

- ➡ **Sizes:**
 - 1.4 oz. Dab-On
 - 2 oz. Spray

Preparations

Scalp Protector Thick

- ➡ Alcohol-based liquid plastic - thicker version of Scalp Protector
 - ➡ Use with Daily Wear bonds
 - ➡ For sensitive or oily skin and people who play sports
 - ➡ Acts as a barrier to reduce or prevent skin irritation
 - ➡ Sanitizes and leaves a thin layer of plastic on the head
 - ➡ Plastic makes the adhesive stick immediately
 - ➡ Increases hold time of the adhesive
 - ➡ Must wait 24 hours before washing
 - ➡ Flammable
- ➡ **Sizes:**
1.4 oz. Dab-On

Preparations

Max Hold Sport

- ➡ Alcohol-based liquid plastic
- ➡ New, improved version of Scalp Protector Thick
- ➡ For sensitive or oily skin and people who play sports
- ➡ Use with Daily Wear bonds
- ➡ Sanitizes and leaves a thin layer of plastic on the head
- ➡ Acts as a barrier to reduce/prevent skin irritation
- ➡ Plastic makes the adhesive stick immediately
- ➡ Increases hold time of the adhesive
- ➡ DO NOT need to wait 24 hours before washing
- ➡ Flammable

Sizes:

1.4 oz. Dab-On

Preparations

Top-Loc Knot Sealer

- ➡ Alcohol-based
- ➡ Low odor
- ➡ Seals and protects delicate knots
- ➡ Designed to keep hair knots tight to prevent unit from going flat
- ➡ Helps prevent shedding
- ➡ Extends life of hair systems
- ➡ Apply to unit after it has been cleaned and before re-installing.

➡ **Sizes:**
4 oz. Spray

Preparations

Just-Rite Positioning Spray

- ➡ Alcohol-based
- ➡ Used by stylists to give them a few extra seconds to place unit where they want it before it sticks.
- ➡ After tape or glue is applied, spray this onto the adhesive.
- ➡ Great for touch-ups along the hairline
- ➡ Nice fresh scent
- ➡ Does not affect hold times for adhesives
- ➡ Flammable

➡ **Sizes:**
4 oz. Spray

Clean and Condition
